Discussion

Data Usage and Privacy

FTC (00:46): Rafael begins the conversation by talking about data usage and privacy.

WC (01:43): The co-host give their opinion on data usage and privacy, they discuss how companies use their data to target the public with advertisement and monetize off of it.

Chinese Credit System

CSCS (03:35): Whinyffer talks about the Chinese credit system, and explains how this system monitors your social interactions in public, this can either benefit you or put you in a disadvantageous position.

PIA (04:40): The co-host give their opinion on the Chinese credit system and compare it to the U.S credit system, and to an academic GPA.

BM (06:12): Whinyffer compares an episode from “Black Mirror” called “nosedive” to the Chinese credit system.

TSD (10:00): The co-host give their opinion on the “nosedive” episode, and talk about how this is similar to “The Social Dilemma” movie, when the girl makes a post and she doesn't get enough likes, so she deletes her pictures and starts crying.

Privacy Laws Worldwide

USPL (13:33): Nishant talks about privacy laws worldwide, Nishant begins this topic by stating that the U.S lacks privacy laws.

PBG (14:02): Nishant talks about privacy laws in the EU, such as “GDPR”, and France’s law in which a child can take down post made by their parents on the internet.

CCPA (15:27): Nishant talks about privacy laws in California and Virginia, the only two states that have privacy laws.

WSJ (17:12): Joey talks about how the Senate wants to ban “TikTok” due to the Chinese Government having access to U.S users' databases.

WSJ (17:45) The co-host give their opinion on the U.S Senate banning “TikTok. They discuss how they might be just doing this in order to have control over “TikTok” and monetize it.

Striking a Balance

FOR (19:17): Joey Introduces the topic of striking a balance, is the U.S trying to protect their citizens privacy or making money?

FSC (19:40): Whinyffer talks about how there are 2 ways that companies track users, First Party Tracking and Third Party Tracking.

FSC (21:00): The co-host give their opinion on companies tracking users, they talk about data leaks, and how the U.S doesn't do anything to prevent these leaks.

FSC (23:30): The co-host talks about how cookies work, and what cookies to accept and which ones to decline.
